OPTIMUM BUST-NOURISHING DRINK FORMULA

NH f'rm-plus™
OPTIMUM BUST-NOURISHING DRINK FORMULA

NH F'rm Plus is a bust-nourishing drink specially formulated for Asian women. Each bottle of NH F'rm Plus is made from pueraria mirifica, sea buckthorn, marine protein and passion fruit juice concentrate. This refreshing fruity concoction contains natural phytoestrogens, flavonoids, amino acids and bust-nourishing essences to help increase the fullness of your breasts.

Integrating the latest in BIO-Technology, NH F'rm Plus penetrates deep within the breast tissue to activate the healthy growth of glandular tissue and breast cells to give you noticeably firmer, perkier and fuller breasts. It also improves droopy, saggy, wide-apart and flat breasts as well as lightens dark nipples for a sexier appearance.

BUST-NOURISHING ESSENCES OF NH F'RM PLUS

Pueraria Mirifica contains 13 types of phytoestrogens which have similar structures to human estrogen. They work together with estrogen to promote the growth of glandular and fibrous tissues as well as breast cells in the breast.

Sea Buckthorn is rich in antioxidative flavonoids and works effectively to protect the skin against free radical damage and delay ageing for smooth and youthful breast skin.

Marine Protein contains 17 types of amino acids that repair and strengthen breasts' fibrous support structure and boost flexibility of the suspensory ligament for firmer and perkier breasts. It is also an important element for a radiant and supple breast skin.

Passion Fruit is rich in vitamin A, vitamin C, iron, folate and other nutrients to help promote the healthy growth of breasts and skin.

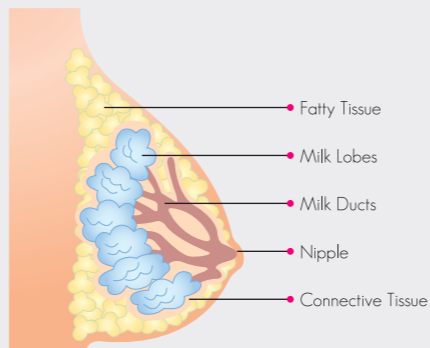

THE 6 UNIQUENESS OF NH F'RM PLUS

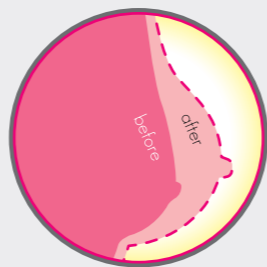

- Japanese formula suitable for Asian women.
- Active bust-nourishing essences - phytoestrogens, flavonoids and amino acids.
- Delicious and ready to drink anytime.
- Utilizes the latest BIO-Technology to give fuller and firmer breasts in just two weeks.
- Safe; no injections and no operations needed
- All-natural ingredients, no side effects and suitable for long-term consumption.

THE STRUCTURE OF BREAST

The breast is mainly composed of glandular, fatty and fibrous tissues. As we age, the rate of estrogen secretion and collagen in our body decrease. Along with breastfeeding, gravity and other influential factors, breast tissue degenerates and this leads to sagging, droopy, wide-apart and shrunken breasts.

When proper care is not taken, it will lead to sagging, droopy and wide-apart breasts. With NH F'rm Plus, it can penetrate deep within the breast tissue to give you noticeably firmer and fuller breasts.

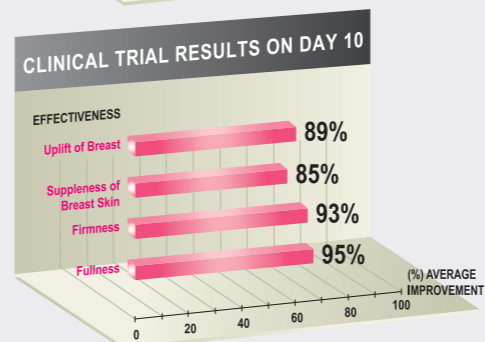

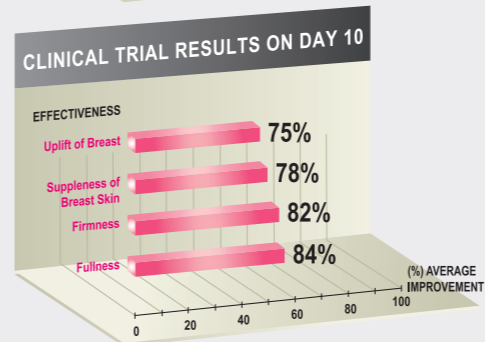

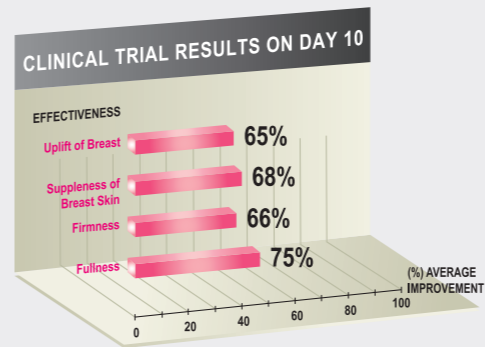

5 BEAUTY EFFECTS OF NH F'RM PLUS

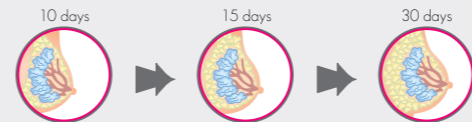

- 1 Promotes the growth of fibrous tissue to firm and reshape loosened breasts
- 2 Repairs and strengthens the suspensory ligament for structural support and uplifts breasts
- 3 Activates the growth of breast glandular tissue and promotes accumulation of fat in the breast tissue for breast enlargement
- 4 Supplies nutrients and retains moisture for smooth and supple breast skin
- 5 Reduces the accumulation of melanin to lighten dark nipples

CLINICAL TRIAL

A clinical test was carried out on 100 Asian women aged 18-50. All subjects were required to consume one bottle of NH F'rm Plus daily for 30 days. These were the results:

Results:
After 10 days, it will result in a firm, tighten and lifted breasts. After 30 days, breasts become firmer, fuller, enlarged, more beautiful bust line, and a noticeable smoother breast skin.

1 How soon can results be seen?

While results vary among individuals, clinical findings have shown that breasts will feel tighten and firmer within 2 weeks. In one month, breasts become fuller, firmer, perkier, more supple and increases by one cup size. Breast skin becomes smoother and younger.

2 When would be the best time to consume NH F'rm Plus?

NH F'rm Plus can be taken anytime but experts recommend taking it before bedtime as cell repairs and the natural growth of breasts and skin take place at night.

3 Does NH F'rm Plus cause any side effects?

No. NH F'rm Plus is an all-natural formula and made mostly from pueraria mirifica, sea buckthorn, marine protein and passion fruit juice concentrate. No side effects will occur from long-term usage.

4 Will NH F'rm Plus contribute to weight gain after long-term consumption?

No. NH F'rm Plus is a low-calorie drink with no fat content. However, it can regulate free fatty acids in the body to travel to breasts for fuller breasts without the weight gain.

5 What are the differences between NH F'rm Plus and other available bust-nourishing drinks in the market?

NH F'rm Plus is the only bust-nourishing drink in the market that utilizes the latest BIO-Technology to break down molecules. This allows its essences to be absorbed instantly by cells and penetrate deep into breast tissue to exert its 5 distinctive bust-nourishing effects. As NH F'rm Plus contains a high content of active natural essences, it only needs to be consumed every alternate day. Even better, NH F'rm Plus is delicious and convenient to drink anytime.

6 Will the bust-nourishing effects stop after consumption discontinues?

NH F'rm Plus strengthens breasts from within. Consistent consumption will enable long lasting bust-nourishing effects. However, there are many inevitable factors such as ageing and gravity that may lead to the degeneration of breast tissue. It is advisable to drink NH F'rm Plus on long-term basis to maintain perkier, fuller and perfect breasts.

7 Why is consumption of NH F'rm Plus discouraged during menstruation?

As estrogen levels in the body are low during menstruation, the bust-nourishing effects of NH F'rm Plus are drastically reduced. It is therefore, not advisable to take NH F'rm Plus during menstruation to avoid wastage.

FIRM! FULL! PERKY!

IDEAL FOR ALL

- Those who desire fuller and perkier breasts
- Those with imperfect growth, flat, small and unsymmetrical breasts as well as rough and dark breast skin.
- Those who suffer from dark nipples as well as saggy, shrunken, droopy and wide-apart breasts due to breastfeeding, menopause, weight loss or hormone imbalance.
